Care Instructions

Barmah Hats are sturdy and durable. With a small amount of care, your Barmah Hat will give you many years of service. To care for your Barmah Hat we recommend the following:

Leather Hats

Please ensure your leather hat is not exposed to extreme heat (for example, inside an enclosed car, behind the glass).

Apply Barmah Hats Leather Conditioning Cream regularly. →

Suede Hats

Cleaning and care products for your suede hat can be purchased at your local shoe repair/ care outlet. We recommend that you take your suede hat with you so that the best product can be determined.

Canvas Hats

Lightly brush off any dust. For minor marks, sponge with warm water and detergent. If necessary, your canvas hat can be cleaned in a 1:3 solution of bleach and gently hand-washed. Ensure the hat is rinsed thoroughly in clean water immediately to remove bleach. It is not recommended that you machine wash your canvas hat.

1001LC Barmah Hats Leather Conditioner

Apply Barmah Hats Leather Conditioner regularly to help protect and care for your Barmah Hat, and maintain it's natural shape.
